My sincere thanks to Audrey for the invitation to judge again this year. Thanks also goes to Daniella Allen for her stewarding expertise and very good company.

A.C. GD CH Oriental Male Adult.

IMP – Denyer’S GD CH TOGAHAR KINDAPOSH THOMAS (OSH o) M 19/04/13. A strong masculine boy of very good type and style. Strong medium length wedge with very good width to top of head, ears large and wide at the base, set to balance. Oriental eye shape and set with mid green colour. Straight profile with firm chin that lines up with the nose tip, bite level. Long muscular body with long strong limbs and long whip tail to balance. Rich warm-toned cinnamon coat, a touch unsound along with a little ghost spotting on the lower sides today, coat short and very close lying with excellent texture. Not happy but handled well nevertheless. Excellently presented.

R – Hirst’s GD CH TOGHAR YANKEE DOODLE DANDY (OSH b) M 04/05/14. A very attractive young male with some excellent qualities, just lost out on maturity on the day. Overall type is very good with a well balanced medium length wedge, which is still marginally effeminate looking, ears large and set to balance. Oriental eye shape and set and it pleases me to see a Havana with the correct vivid green eye colour. Straight profile firm chin and level bite. Long muscular and deceptively weighty body with long elegant limbs and long whip tail to balance. Warm-toned Havana brown coat, still has some ghosting to sides and is marginally unsound today, coat length texture and overall condition excellent. Very sweet tempered and easy to handle. Excellently presented.

Red Self Adult

BOB – Abidin’s CH WILLOWOOD JASER CARROT (BRI d) M 14/04/14. A well developed boy for 14 months with good British type. Strong round head with full cheeks and rounded muzzle, nice broad skull and neat small ears set to follow the contours of the head. Rounded forehead and short nose, firm chin, bite level but a touch sore looking today. Good open expression to eyes of mid copper colour. Weighty and substantial body with good breadth to chest, short strong limbs and medium length tail with rounded tip to balance. Rich mid red coat colour with some fairly distinct pattern evident, good coat given the time of year, short dense and with a hint of crispness to it. Excellent to handle and excellently presented.

also considered – Chance’s CH CHARMODEN SIMPLYMEEKA (BRI d) F 09/03/13. An attractive queen of very good type. Round head with neat cheeks and good width to skull, ears marginally tall but set well. Lovely expression to eyes of rich copper colour. Rounded forehead with short nose, firm chin and level bite, has a tendency to puff out her whisker pads and square off her muzzle a touch. Body of medium length and could be a touch cobbler but nice and weighty, short limbs and medium length tail. Super rich red coat colour, showing underlying spotted pattern,

coat a touch long, soft in texture and could be denser but I appreciate that the summer is not the ideal time for a British coat. Very sweet tempered and easy to handle, excellently presented,

Tipped Adult

CC & BOB – Binton's JERAZ LITTLE SNOW BEAR (BRI n 12) M 20/06/14.

An attractive young male with overall good British type but very immature at the moment. Rounded head with fairly full cheeks, has good width to his skull and medium size ears set well. Rounded forehead, short nose with brick red nose leather outlined in black, firm chin and level bite, well rounded muzzle. Very good expression to eyes that were open and nicely rounded, two tone bright green in colour. Rangy adolescent body with weight appropriate for size, short limbs and medium length tail. Tipping to coat fairly even but still quite heavy at the moment, but he still has time for it to improve, coat a little long and could be denser but is reasonably crisp in texture. CC perhaps a touch generous but I feel he has potential. Excellent temperament and presentation.

A.C. Colourpointed Adult

CC & BOB – Cain's CHUBBEMEUP TWIX HAPPY (BRI bs 21 33) F 09/09/14.

A young queen of overall good type with maturity in keeping with age. Round head with neat cheeks, ears medium in size with good width between, marginally square in the muzzle, nose short and neat with firm chin and level bite. Round eyes open and expressive with clear blue colour. Medium length body adolescent rangy as yet but good for weight and substance, short limbs and tail with rounded tip to balance. Tabby markings to points, typically for a silver cat, are dark and cold in tone, ticked-based pattern by the look of it with narrow bracelets to limbs and rings to tail, well defined "m" to brow with light tabby tracings to cheeks. Coat almost unshaded, a touch long but reasonably dense and has some crispness of texture. Very sweet tempered, excellently presented.

AO.C. Silver Tabby Kitten

1st & BOB – Kidd's KRESTA BLUEBELL (BRI as 22) 25/02/15. This kitten is beautifully grown for 4 and a half months and promising for type. Nicely rounded head with dear little cheeks, but showing a teething pinch to muzzle today, ears fairly small and well set, well rounded forehead and short neat nose, strong chin and level bite. Round eyes, colour still developing, there is some orange there but she still has a green inner ring at present. Weighty little body, a little bit long at the moment, short quite dainty limbs and paws, medium length tail. Pretty mid blue tabby pattern with well defined butterfly, has her three spine lines although central one is a little indistinct, oysters large complete and nicely rounded with pale silver ground just minimally brindled. She does currently have some tarnishing to her muzzle and forepaws but hopefully this will improve as she grows. Soft fine kitten coat at present. Lovely temperament and condition excellently presented.

Havana Adult

Lilac Point Siamese Adult Male

BOB – Jackson-Lee’s CH NIGHTQUEEN MANTRA (SIA c) M 19/02/14. A strong and handsome male of very good type. Super head with a broad top line and very large wide based ears excellently set, although he does tend to hold low a times. Very strong profile with “fat” nose, deep chin lines up and the bite is level. Oriental eyes marginally deep set and with a hint of a “look”, colour mid blue. Wonderful muscle tone to his long strong body, long strong boned limbs and tapered tail to almost balance. Darker lilac points with the merest hint of pink, looked better out of his pen, magnolia coat with some light tonal shading to his flanks, coat length good, marginally soft in texture but manages to lie close to body. Handled really well and was excellently presented

Oriental eye shape and set with mid blue colour. Profile almost straight, chin firm and bite level. Long slender but weighty body, long elegant limbs and neat spoon paws, tapered tail needs an inch to balance. Straight strong profile with firm chin and level bite. Snooty expression to eyes of mid blue. Long well muscled body and long limbs, however tail rather short and needs at least two inches to balance. Dark blue-based caramel tabby points with some brownish overtone to base of ears and to multi tail rings, he is beginning to “hood” over his skull but still has sufficient contrast, off-white coat heavily shaded to tone with his points, coat nice and short but soft and fine in texture. An easy chap to handle and excellently presented.
