

Maidstone & Medway CC – 21/12/14

Mrs Di Brown

An excellent show with its usual cheery and happy festive atmosphere, my thanks to Shelagh and her show management team for the judging invitation. To Mary Janicki my sincere thanks also, it is always a pleasure to have you stewarding for me Mary and I look forward to the next time.

British Black Adult Female

CC & BOB – Brown's KOLINGA BACK TO BLACK (BRI n) F 20/03/14. A very promising young queen, lovely head type although needs to catch up with body size. Nice and round with good full cheeks and very good width between neat small rounded-tipped ears set to follow the contours of the head. Short broad nose, good firm chin, bite just about meets, well rounded muzzle. Very good expression to eyes of intense orange colour. Short strong neck, large very substantial and weighty cobby body, short strong limbs and rounded paws, medium length tail to balance. Jet black coat, a touch unsound but acceptable for the certificate, short and fairly dense, just marginally soft in texture today. Excellent temperament and presentation.

British Lilac Kitten Male

1st – Edward's KERNMERE DANCINGFLAME (BRI c) M 25/04/14. This lad has overall good type although I would have liked him a little bigger for an 8 month male. Well rounded head with medium size ears set well and with good width between, neat cheeks, short nose, good chin and bite, somewhat prominent in the whisker pads. Eyes round and open in expression, mid orange in colour but has a marginal green inner ring at present. Body fairly cobby in type, but although well covered could be weightier, medium length limbs tail marginally long for balance. Darker lilac coat colour that could show more of a pinkish overtone, shows a lot of tabby ghosting to body as yet with very clear facial markings and rings to tail, it was also quite unsound, fairly good for length with some density but soft in texture. A sweet tempered boy who is at that awkward stage of development. Very easy to handle and excellently presented.

British Lilac Kitten Female

1st & BOB – Acton's IDLEBECK TARARA BOOM DEAY (BRI c) F 19/08/14. A promising young baby, nicely developed for her age. Dear little head, round and neat with medium size ears set well apart, cheeks coming along nicely, nose short, chin firm and bite level, rounded muzzle. Excellent expression to eyes, colour rather muddy toned at present but looks as though it will be deep orange when it has finished developing. Weighty and compact little body, with short limbs and neat round paws, tail with rounded tip to balance. Excellent pinky tones to lilac coat, still shows baby guard hairs at present but is quite dense, it is also free from ghosting and completely sound. Lovely temperament, purred throughout. Excellently presented.

British Cinnamon or Fawn Kitten

1st & BOB – Carroll's FANBIEKATZ JIMMY CHOO (BRI p) M 10/08/14. A cobby and substantial boy of overall good type. Round head with neat cheeks, ears are a bit tall at the moment and they could do with more width between but he is still very

young, rounded forehead and short neat nose, good depth of chin and a level bite, teething pinch to muzzle. Round eyes with good expression, colour still developing with a marginal green inner ring at present. Weighty and compact body, short strong limbs and large round paws, tail almost balances. Pretty rosy-toned fawn coat, shows some light surface ghost spotting at present but is otherwise fawn to roots, a tad baby long and soft in texture but does have some density to it. Excellent to handle and excellently presented.

British Red Kitten

1st & BOB – Zerilli's WILLOWOOD JASPER CARROTT (BRI d) M 14/04/14.

A beautifully grown kitten with good British type, just a month away from adulthood and beginning to look it. Round head with full cheeks, very good width to top head with medium size ears well set, rounded brow perhaps a little heavy, short broad nose, deep chin and level bite, marginally pinched in the muzzle today. Eyes very slightly deep set thus not quite as open as ideal but colour excellent, a deep intense orange. Large cobby and substantial body, strong boned limbs, marginally long tail with rounded tip. Excellent rich bright red coat which shows a fair amount of clear spotted pattern at the moment, but otherwise red to roots and hopefully this will fade out somewhat as he matures, good for length and quite dense albeit a touch soft in texture. Excellent to handle and excellently presented.

Oriental Tortie Adult

BOB – Viggers' IMP GD CH MICHANT FURREVER-LOVE (OSH j) F 17/05/12.

A lovely queen, elegant and stylish with very well balanced head, top line excellent and the ears are large, nicely flared and set to follow. Almost straight profile with good depth of chin, bite has several incisors missing but looks reasonably level. Beguiling eyes of very good shape and set with good mid green colour. Long elegant neck and a long well toned and slender body, long slender limbs and neat spoon paws, tapered tail to almost balance. Pinky-toned lilac tortie coat, well mingled throughout with mid and paler cream, sound to roots, length and texture excellent, very short sleek and close lying. Handled well and was excellently presented. Later my choice for Best Oriental Adult.

A.C. Balinese Adult.

BOB – Hart's CH HARTRIDGE HIPPYCHIC (BAL f 21) F 21/03/13.

A good size Bali lady of well balanced and stylish type. Even medium length wedge with good width to top of head, ears large nicely furnished and with good width at the base, set to follow. Almost straight profile, chin good, bite scissored over. Oriental eye shape, slightly deep set, colour bright mid blue. Long weighty body, limbs fairly long and dainty for this breed, neat fronded paws, tail needs an inch to balance. Seal tortie points show lots of good bright red mingling on all extremities, but particularly on the ears, coat length very good, flowing well and frilling at the lower edges of the sides, with lovely silky and fine texture, lightly shaded thus excellent contrast, plume well furnished. Excellent to handle and beautifully presented.

Lilac Point Siamese Kitten Male

1st & BOB – Sibley's ATARIQ CELESTIAL HALO (SIA c) M 16/08/14.

A solid little boy of promising type. Neat medium length wedge with lovely top of head and large ears set wide. Tiny baby dips to profile, chin could be a tad deeper but lines up well with the nose tip and the bite is level, teething pinch to muzzle. Excellent

expression to eyes of mid blue. Promising length to weighty and firm toned body, long slender limbs and super whippy tail to balance. Points colour is pale but marginally blue toned at present and he has a lot of brindling to his tail. Magnolia coat with minimal tonal shading, good for length but soft fine baby texture as yet. A super little chap, who was friendly and easy to handle. Excellently presented.

Lilac Point Siamese Kitten Female

1st – Rudakov's SENSUAL SZARINA LING-LING (SIA c) F 15/06/14. A well grown girl of overall good type. Medium length wedge, top of head slightly narrow so she tends to carry her large ears a little high, better when she relaxes. Good shape and set to eyes, colour could ideally be deeper but is acceptable. Profile almost straight, chin and bite good. Long body with full tummy line, long limbs, tail needs at least an inch to balance. Points colour on the dark side and could pinker in tone with a very definite brownish over-tone to the tail, Short close coat, more off-white than magnolia in colour, of good texture with some brownish shading over the flanks. A little shy but handled well. Excellently presented.

Lilac Point Siamese Neuter

BOB – Martin's IMP GD PR ABICASA THE ARTFUL DODGER (SIA c) MN 19/01/12. A beautiful male neuter, very stylish and balanced overall. Excellent head type, albeit a tad effeminate, excellent top of head and very large flared ears, beautifully open at the base and set wide. Dip to profile centre nose, chin firm and bite level. Love his true Siamese expression, and the colour is excellent for depth of blue and brilliance of tone. Well defined neck-line and a long really weighty and firm toned body, long elegant limbs and neat spoon paws, tapered tail to almost balance. Lovely pinky-toned lilac points with the merest hint of tonal shading to his magnolia coat that was short close and excellent for overall texture. Perfect temperament, such a relaxed and laid back lad, beautifully presented.
